

HOW TO ENROLL IN Digital Banking

To get started visit firstcu.net and click “Enroll here” in the top right corner of the screen or scan this QR Code with your smart phone.

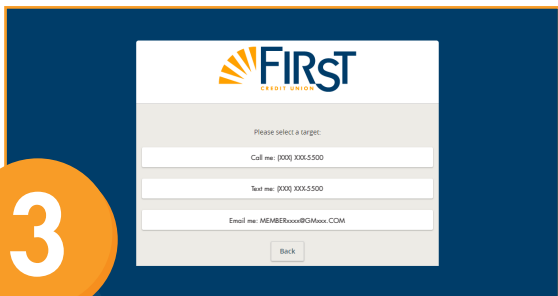

Click “Learn more about Digital Banking” to access a step-by-step video tutorial and more great resources! :)

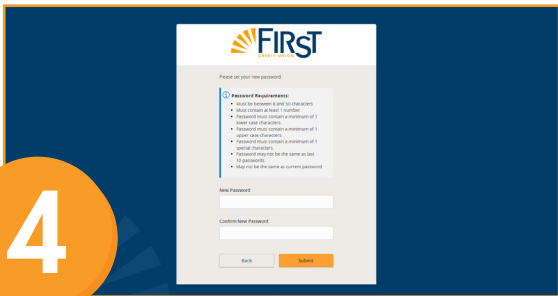

You will be prompted to enter your personal information.

In the “Requested Login ID” field you have the ability to create the Username you will use to login - your username must be unique from all other users. If a user already has your requested login you will need to pick another.

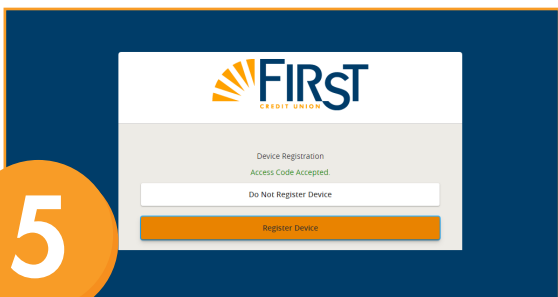

You will be prompted to enter a Secure Access Code (SAC) for security purposes. Select one of the options listed to receive your code.

We will NEVER ask you for your Secure Access Code, please do not share this code with anyone!

Once your SAC has been accepted, you will be prompted to create your password. Please review the password requirements to ensure the password you are choosing is secure, and will be accepted.

After this step is completed, you will be asked to read and accept the *First Time Login Disclaimer*.

Next, you will be taken to the Device Registration page.

If you are on a public or unsecured machine click “Do Not Register Device”. If you are on a private and secure machine click “Register Device” this will eliminate the need for you to enter a SAC each time you log in.

Once you have completed Step 5 you will be successfully enrolled in Digital Banking! If you have any questions or need assistance please contact our Member Solutions Center at 480-756-5500 or toll-free at 800-732-6986 if outside the Phoenix area.
